

**Contract Manufacturing Services**

Madrid, Spain | Barcelona, Spain | Miami, USA

## Salvat, providing integrated services

- Privately owned pharmaceutical company
- Headquartered in Barcelona, with US subsidiary in Miami
- 70 years of experience in the pharmaceutical industry
- Salvat offers a complete **CDMO services**
- Expertise in **Blow-Fill-Seal technology**
- Manufacturing sites located at Barcelona, Madrid & Miami

**Salvat offers a complete  
CDMO services,  
equipped with the  
latest technology**

# Over 30 years of experience in manufacturing pharmaceutical products for different markets

---

In Salvat, we understand how important the assurance of supply, regulatory compliance, quality and good manufacturing practices is; in combination with experience.

## ***Operational Excellence***

Fully compliant with  
GMP certified, and FDA  
certification approved

## ***Flexibility***

To manufacture from small  
batches to meet customer  
demand

## ***Adaptability***

Implementation of your project  
with short time to market

# Project commercialization phase

Quality: EU approved sites  
Operational excellence program

Lead time: From order to warehouse ready for shipment

**Regular orders:**

**New projects:**

# Wide variety of Dose forms & Packaging capabilities

## **SOLIDS**

### **DOSAGE FORM**

Dry & Wet Powders  
Blending Powders  
Dry & Wet Granulation  
Pellets  
Tabletting  
Tablets Coating  
Sugar Coated Tablets  
Oral Dispersable Tablets  
Hard Gelatin Capsules  
(powders & pellets)

### **PACKAGING**

Sachets  
Blister push through:  
• ALU/PVC  
• ALU/PVDC  
• ALU/TRIPLEX  
• ALU/ALU  
Blister peel off  
• ALU/ALU

## **SEMISOLIDS**

### **DOSAGE FORM**

Gels  
Creams  
Film

### **PACKAGING**

Tube

## **LIQUIDS**

### **DOSAGE FORM**

Solutions  
Nano-emulsions  
Mucoadhesive  
Syrups  
Lotions

### **PACKAGING**

Multi-dose bottle non-sterile  
Multi-dose bottle sterile  
Single-dose vials sterile  
(Blow-Fill-Seal)  
Sprays  
Nebulizer

# Blow-Fill-Seal Technology Solutions & Nanoemulsions

## Advantages

- **Innovation in the format → Differentiation**
- **Single-dose vials → Increased patient compliance**
- **Preservative free dosing → Better tolerability**
- **100% leak test inspection**
- **Sterile by filtration (Not irradiated) → clean, safe, and maintain the quality of the finished product.**

**10**  
years

*Over 10 years  
of experience  
in blow-fill-seal  
technology,  
developing  
and manufacturing  
sterile products*

# Blow-Fill-Seal Technology Solutions & Nanoemulsions

## Technical Specifications

- **7 Blow-Fill-Seal** lines (Rommelag technology)
- Over **+350 Mio unit** ampoule capacity / year
- **Fill** volume range from **0.20 ml** to **15 ml**
- **Batch** size from **50L** to **2000L\***
- **EU Approved** and **Future worldwide certifications** approval

## Packaging Capabilities

- **Fully automated**
- **Transpared or colored** vials
- **100%** leak test inspection
- **Automated** bundling
- Possibility to **Flow pack**
- **Labeled or Engraving** vials
- **PE** (polyethylene) and **PP** (polypropylene)
- **Serialization & Aggregation**
- **Strips** 2,5,7 & 10 vials

**New Facility**

**Existing Capacity**

# Multi-dose Sterile Solutions

## Advantages

- **Total sterile process** (from weighing raw materials to vial filling) or **Sterile by filtration** (Not irradiated) → clean, safe, and maintain the **quality of the finished product**.
- **Specific container to prevent post-opening contamination\***
- **Innovation of the multiple format** → Differentiation
- **Preservative free\*** → Better tolerability

# Multi-dose Sterile Solutions

New  
Facility  
Capacity

## Technical Specifications

- Sterile bottle filling line (Groninger technology)
- Over 25 Mio/year
- Fill volume range from 2 ml to 15 ml
- Batch size 50 L – 2000 L\*
- EU Approved
- Future worldwide certifications approval
- ATEX formulation capabilities

## Packaging Capabilities

- Fully automated
- Automatic bundling
- The bottles are filling under a laminar flow
- HDPE plastic bottles
- Tamper evident container
- Serialization & Aggregation
- Offline leak test

# Non-Sterile – Multi-dose liquids

## Technical Specifications

- Over 23 Mio/year
- Fill volume range from 10 ml – 500 ml
- Plastic or glass bottles
- Batch size 50L - 2000L
- Filling under laminar flow
- ATEX area
- Serialization
- EU approved

## Advantages

- Wide range of application devices available
- Robotical filling provides a high output and low setup between products
- Flexibility, quick set up and versatility.

Existing Capacity

# Commercial capacity

Manufacturing Technologies	Batch Size	Fill Capacity	Annual Capacity
<b>SOLIDS</b>			
<b>Tablets<sup>^</sup></b>	100 – 500 Kg	-	195 Mio
<b>Capsules</b>	100 – 500 Kg	-	100 Mio
<b>Sachets</b>	50 – 250 kg	-	2,6 Mio
<b>SEMI SOLIDS</b>			
<b>Tubes</b>	50-1200L	-	1 Mio
<b>LIQUIDS</b>			
<b>NOT STERILE</b>			
<b>Multi-doses</b>	100 L to 2000L Atex: max 900L	10 ml to 500 ml	23 Mio bottles
<b>STERILE</b>			
<b>Single-dose vials / HDPE</b>	100 L to 2000L*	0,20 ml to 15 ml	350 Mio vials
<b>Multi-doses</b>	100L to 2000L*	2 ml to 15 ml	25 Mio bottles

- Wide range of application devices available
- Serialization & Aggregation
- Flexible manufacturing operation
- EU Approved
- FDA Approved

<sup>^</sup> Coated and not coated / \*Commercial phase minimum batch sizes: Mono-dose 250L & Multi-dose 500L

# Certifications

**Authorized** to manufacture **drugs, medical devices, biocides, food supplements and cosmetics**

## Our Current Partners
